

Dear Academy Parents,

If your child is new to Academy at the Lakes, you must provide us with a ***proof of immunization form*** (DH680, color blue). This is required by the State of Florida, Department of Health, for children entering a child care facility, preschool or school (public or private), pre-school through 12th grade. This form is furnished to you (completed and signed) by your family physician and must be in our office **before the student attends classes**. If you are a returning family at Academy and have updated this information during the summer, please furnish the office with a copy of the updated immunization record.

To be fully immunized means the following vaccines for those entering JK-6th grades.

- 5 doses dtp
- 4 doses polio (5 doses if the 4th dose was administered prior to the 4th birthday)
- 2 doses measles
- 1 dose mumps
- 1 dose rubella
- age appropriate dose of type b HIB
- 3 doses hepatitis B
- 2 doses Varicella if disease not documented to physician

In addition, the following are needed for those entering the 7th–12th grades.

- Three, four, or five doses of IPV
- Tetanus-diphtheria-acellular pertussis booster (Tdap)
- 2nd dose for measles/mumps/rubella (MMR)

Athletes: If your child (new or returning) wants to be involved with our sports teams or cheerleading programs, he/she will also need updated ***Preparticipation Physical Evaluation*** and ***Consent and Release forms*** (included in this mailing).

If you have any special requests, exemptions, or questions, please consult your child's physician and he/she will provide you with the proper documentation to give to the school. Thank you very much for your time and consideration.

Sincerely,

Twila Gonzalez
