

Amazon Expedition

Student and Family Trip to the Peruvian Rainforest

Saturday, June 20 to

Tuesday, June 30, 2020

Amazonia Expeditions, owned by Paul and Dolly Beaver, parents of Stephanie Beaver '13, is a lodge and research center in the heart of the Peruvian rainforest. **This ecotour is the top-rated Amazon trip on TripAdvisor.**

For the last eight years, Academy families have traveled in June to the lodge and research center. This 10-day adventure includes ziplining through the rainforest canopy, canoeing through flooded forests, hiking, searching for poison dart frogs, swimming with pink dolphins, fishing for piranha, feeding Amazonian manatees, and observing monkeys and the other vast variety of wildlife.

An informational meeting will be held on Tuesday, September 24th at 6:00 p.m. in the Middle Division Science Lab. For more information on the trip, or to RSVP for the informational meeting, please email Colleen McCormick at cmccormick@academyatthelakes.org
