

AP Statistics Summer Assignment

In order to hit the ground running in the Fall, you will need to complete the first chapter of AP Statistics over the summer. We will review the content over the first couple of days of school and then you will take your first test. If you score lower than a B on the first test, we will need to discuss whether AP is the right class for you. Please don't put this assignment off until the last minute!

Instructions: Watch all the Chapter 1 videos on the LMS page for Summer Math and TAKE NOTES (scroll down to AP Statistics). If you are not yet enrolled in the LMS course, please let me know via e-mail (sbrowning@academyatthelakes.org) and I will add you. Complete the exercises found in the separate files posted on the LMS in Summer Math. Note that I will NOT be collecting this assignment, but if you don't do it, you will likely fail the test.
