

Academy at the Lakes

COPPA – Student Privacy

Academy at the Lakes integrates online resources into its teaching and learning in a phased, developmentally appropriate manner. To support this, students are assigned individualized usernames, passwords, and restricted email accounts starting in SK. The students do not have access to their restricted email accounts until 5th Grade.

Academy at the Lakes is committed to protecting student privacy and ensuring compliance with the Children's Online Privacy Protection Act (COPPA). Academy at the Lakes adheres to COPPA guidelines by carefully selecting online resources that prioritize student privacy and security. When online tools require student information for account creation or personalized learning experiences, we provide only the minimum necessary details and ensure that these platforms comply with COPPA regulations.

Below is a list of internet-based vendors that we have selected. Academy at the Lakes provides limited student information to enable secure and personalized access to educational resources. This list is regularly reviewed and updated as we continue to assess and integrate the best online learning resources for our students.
