

Dear Academy Parents,

For the 2025-2026 school year, if you update your child's *Immunization form* (DH680, blue form) over the summer, please provide me a copy. The *Immunization form* needs to be up to date and on file with Academy at the Lakes prior to the student(s) attending the first day of school.

Kindergarten through 12th Grade vaccine requirements:

- Four or five doses of Diphtheria-Tetanus-Pertussis (DTaP)
- Four or five doses of Polio
- Two doses of Measles-Mumps-Rubella (MMR)
- Three or four doses of Hepatitis B (Hep B)
- Two doses of Varicella
- One Tetanus-Diphtheria-Pertussis (Tdap) (required for all students seventh grade and above)

*Varicella (Chickenpox) vaccine is not required if there is a history of varicella disease documented by the healthcare provider.

If you have any questions, special requests or exemptions, please contact me at nurse@aatl.org. Please consult your child's physician for the proper documentation (Form 681 for religious exemptions) to provide to the school. Thank you for your time and consideration.

Sincerely,

Getta O'Neill, RN
School Nurse
